Recommendation Letter

Director of Admissions and Enrolment,
King Abdullah University of Science and Technology,
Saudi Arabia.

Dear Jon Beard,

REFERENCE ON MURAINATAOREED ADEKUNLE

It is my honor to recommend Taoreed for the PhD programme in Chemistry at King Abdullah University of Science and Technology. I have had the pleasure to know and work with him for the last 12 years. I first came to know Taoreed as an undergraduate student when I was his lecturer during which he distinguished himself by doing excellently well. I would rank him among the top 2% of students I have taught for that period.

As a student, he was well behaved, always punctual to class and had a great attention to details and always engaged the class by asking questions when he does not understand. He never missed classes and always listening with rapt attention. He demonstrated a good leadership quality by organizing extra classes for his course mates so as to explain difficult arrears of the course to them. During practical sessions, he was always ahead of his mates in the conduct of practical as well the reporting.

As a result of his excellent academic and research abilities, he was employed immediately after his undergraduate graduation to the department of Chemical Science and Technology as Chemistry Technologist. As my junior colleague now, he has been performing wonderfully well with proven teaching and research skills. His quest for knowledge after bagging Higher National Diploma (HND) in Chemistry made him enrolled for his Bachelor of Science degree and Master of Science degree all in chemistry.

Taoreed has proven himself to have the initiative, perseverance and intellectual creativity needed for post graduate degree studies. He has good organizational, interpersonal and communication skills. I would therefore strongly recommend Taoreed for the PhD chemistry programme at King Abdullah University of Science and Technology Scholarship that he applied for. He would be a very good asset to your Institution.

Thank you.

Yours Faithfully,

Adekunle Adewale, PhD.

Director ICT,

Federal Polytechnic, Ede
